Raising Resilient Oklahomans!

Potts Family Foundation

Join Our Oklahoma Virtual Community
Raising Resilient Oklahomans!

Build the capacity of your city, town, region to address complex ACE-related social and health issues by joining the conversation at ACEsConnection.com/g/raising-resilient-oklahomans.

- Track and analyze your progress by using ACEsConnection.com's tracking and mapping tools.
- Take advantage of practices and policies that support trauma-informed and resilience-building efforts for individuals, organizations, systems, and communities including materials to share with parents, schools, hospitals, courts, police, health departments, businesses etc.
- Inspire your community to use experiences and wisdom to prevent and heal trauma and build resilience.

Raise awareness about ACEs Science[1] Free access to information, tools, resources, research, and innovations.

- PowerPoints, handouts, articles, resources.
- Practices and policies that support trauma-informed and resilience-building efforts for individuals, organizations, systems, and communities including materials to share with parents, schools, hospitals, courts, police, health departments, businesses etc.
- Adapt and adopt innovative practices from other communities.

Connect with individuals interested in addressing ACEs and promoting trauma-informed and resilience-building practices and policies.

- Build your local ACEs momentum through cross-sector collaborations.
- Share your community's successes with the entire ACEs Connection Network.
- Announce community events and meetings, and share minutes and transcripts online.
- Post local articles of interest and data relevant to the ACEs movement.
- Connect with local and nationally-recognized leaders in the ACEs movement.
- Be part of a nationwide group of Community Manager and get ideas, inspiration, and support.

Gather local data, a critical part of showing community progress

- Map organizations that have had ACEs science 101 presentations
- Map organizations that have implemented practices based on ACEs science.
- Access the ACEs Connection Community Tracker to map and measure this progress. Your community manager Linda Manaugh (lmanaugh@pottsfamilyfoundation.org) can help.

What others who have started a Community on ACEsConnection.com say:

"For every post you put out there, you'll never know how many you have likely inspired by your story! It could be because you offered a tool or strategy they hadn't heard about, or you painted a 'champion's' face in a way they recognized… Or maybe you helped connect a sector to another sector that wouldn't have 'thought' to make that link. Be inspired by your own inspiration and share the stories -- because with this information comes the responsibility to use it and help others use it!" -- **Teri Barilla - Walla Walla Valley (WA) ACEs Connection**
